The supreme court of Virginia has decided that the law for adding the running of freight trains on Sunday is unconstitutional.

An appellate court in New York holds that a man's note made payable "sixty days after death" is good against the maker's estate.

A wreck caused by colliding trains on the N. P. road near Tacoma occurred on Monday, in which Fireman Frank Cooper and David Young were killed.

The price of eggs is without an equal in the history of the last ten years. They have maintained their advance since the McKinley bill went into effect and shut out the Canadian supply. To-day eight dozen eggs will buy eighteen pounds of granulated sugar, where before the law went into effect it took thirteen dozen to buy twelve pounds of the same sugar. Hurrah for the American hen!—Winnipeg Argus.

There is new trouble in Texas. The last legislature passed a very stringent alien land law, which prohibits aliens from holding title to land in that state. The Texas farmers have a land mortgage indebtedness of about \$45,000,000 held by foreign capitalists, and these capitalists have quite naturally become alarmed at the legislation which so threatens their interests, and they propose to call in their loans. This alarms the honest granger fearfully, and he is urging the governor to call an extra session of the legislature to repeal the obnoxious law.—Register.

C. C. SHAYNE, who disclosed that the democrats were raising \$500,000 among the New York importers to defeat Major McKinley for the governorship, was formerly a staunch democrat, but Cleveland's free trade message to congress entirely won him of democratic proclivities, says the Duluth Tribune. His practical business sense had so indoctrinated him with protection that he could not follow his leader. Mr. Shayne lived for many years in Ohio, having been engaged in business in Cincinnati before going to New York, and he married his wife in Pomeroy. He has gone to Ohio at the request of Major McKinley, but at his own expense, and under such circumstances, is likely to be a vote maker.

Is It Inoperative? A telegram from Luverne says: Local attorneys claim to hold the opinion that the chicken law is inoperative this season. It prescribes a close season from Nov. 1st to Sept. 1st, but having been passed in April it is claimed that it does not and cannot take effect, so far as chickens are concerned, until November. The county attorney is said to hold this opinion, and no attempt is being made to prevent the shooting of chickens, which is going on every day. If there is a game warden for this section he has not announced himself.

The Carlton County Vidette gives Dr. Howe the following free advertisement: Dr. Howe has a grand way of entertaining guests at the Hotel Pokagon in Grand Rapids. When the guest enters the hotel dining room and sits down to a table to partake of a meal of luscious and wild honey, the Dr. follows him in, and sitting down at the same table, seizes a borrowed lead pencil, and after drawing out a plat of Grand Rapids on the table cloth, begs the attention of the guest for one moment. Then he recites his piece about Grand Rapids and the surrounding country, and asks the hungry guest to invest in a ticket. The Doctor maintains that \$500 is a very cheap price for a lot, and if the guest persists that the price is too high, the Doctor gradually reduces the figures until he gets down to a nickel, when the hungry guest in despair throws the coin to the Doctor and the bargain is closed. Some day the Doctor will confront a guest who will throw a boot instead of a nickel at him, that terminate his present method of entertaining guests at the Hotel Pokagon.

A Lost River. According to the Los Angeles Herald, the Southern Pacific railroad company has lost a river, and in consequence has a bridge whose occupation is gone. The Whitewater river has flowed from Sierra Madre mountains across the sands of the region just this side of Seven Palms as long as any one can remember. The station of Whitewater was located where the river crosses the railway and was supplied with water from its current. During the last heavy rains the Whitewater rose in its might and devastated the whole country round about, washing out the bridge and the roadbed and playing the mischief generally. Soon the rains and the river stopped simultaneously, and the river has not been found since. It appeared to become ashamed of itself for doing so much harm, and has apparently slunk away in disgust and sorrow. It is entirely gone. At no point does it cross the railroad, as it would have to do were it still in existence in some new course. The railroad company, in order to secure water for its station at Whitewater, has been obliged to build a pipe line away up to the mountains, at considerable expense. All last summer, the river ran placidly along—in fact, it has never failed until after its "jag" of this winter. Now it forms one of the mysteries of the Colorado region, and perhaps is flowing by the Pegleg mine, and possibly rippling beside the treasure-laden Spanish galleon which lies somewhere in that region buried in sand.—Scientific American.

Sandy Lake Reservoir. Maj. W. A. Jones, of St. Paul, the civil engineer in charge of the United States improvements in navigable streams, says that the work on the new reservoir at Sandy Lake, Itasca county, designed to contribute to the Mississippi river in times of a low stage of water, will be completed in about six months.

Quite Well Put. Will some McKinleyite step up to the rack and tell us this: "If free sugar is a good thing, why not salt also?"—Crookston Times.

We do not know what a "McKinleyite" is—but if the Times will promise to quit asking back-number questions, some long-suffering friend will answer because Michigan is not in the West Indies.—Glyndon News.

Things Worth Remembering. That it is dangerous to stand near a tall tree or spire during a thunder storm; that the southwest corner of the cellar is the "cyclone safety-point"; that there is no medicine so universally applicable to sickness as fresh air and sunshine; that blowing out the gas, before retiring, is funny—to everybody, except the man who tries it; that you may swear as hard as you please, but it will not remove grease spots; that the Wisconsin Central is the most popular route to Milwaukee, Chicago, and points East and South.—Jan. 2, '92.

Government Attention Needed. The army authorities should look after the abandoned post of Ft. Ripley, as its present condition makes it a dangerous place in some respects. Under the half-tumbled down houses are cellars into which stock of the settlers can wander, and there are several large cisterns the coverings of which have so decayed that any man or beast passing over would be liable to a serious fall. A valuable animal recently fell into a cistern and a man who lives near the Fort lost a young work ox a month or two ago, and a stench from one of the cellars revealed the fact that the animal had fallen into the cellar and starved to death. The buildings are gradually being destroyed and the department should give the matter a little attention and get rid of them at what little they are worth and see that the death traps are abolished.—Little Falls Transcript.

MINNESOTA STATE FAIR. It is to be a "farmers' fair," first, last, and all the way through. \$12,000 in premiums for live stock and agricultural and horticultural exhibits. Expert judges will award premiums on merit only. Feed for animals may be had on the grounds at regular rates. No exorbitant charges. The largest grizzly bear in the world will be on exhibition. He is dead. Visitors to the dairy department will see cheese-making after the most approved methods. The student of the art and the curiosity seeker will find in this much to instruct and interest. Half-fare rates on all railroads. Many improvements have been made on the grounds, and the accommodations for both exhibitors and visitors, as well as animals, are ample. You can see the State Fair, the Minneapolis Exposition and the great spectacle, "Seize of Vera Cruz," all at one trip. Supt. O. C. Gregg will hold a Farmers' Institute each day, from 10 a. m. to 12 m., in a large building fitted up and seated for the purpose. Object lessons will be given by the expert judges of live stock. Doory and farm machinery on operation on the grounds. Providing tents for visitors, free of cost, is a feature both novel and creditable to the management. The great camp filled with happy sight-seers will itself be a feature of the fair well worth seeing. A choice racing program for every day of fair week. Special purses to Minnesota bred horses. County exhibits will be a more conspicuous feature than ever before.

The Pinesh System of Lighting Passenger Trains With Gas. The Pinesh system of lighting by means of compressed gas is pronounced by competent judges to be the best known means of car illumination. It is safe under any and all circumstances. It is not affected by atmospheric changes. Burns more steadily than any other light in use. Although very brilliant it is soft and agreeable. It emits no smoke, is odorless and perfectly clean. It is so effective and evenly distributed that travelers in any part of the car can read easily and comfortably. It is simple in operation, absolutely reliable and of constant quality. Although this system has been in use on some of the leading lines, the credit of first introducing it in the Northwest belongs to "The North-Western Line"—C. St. P. & M. & O. Ry. The vestibuled trains on this line, leaving Minneapolis at 6:50 p. m., St. Paul 7:30 p. m. daily, for Chicago and Milwaukee, are lighted throughout with this gas. In addition to the superior arrangement and comfort of the sleeping cars, the vestibuled trains are now carrying light ads to the appearance of the car, and passengers have expressed themselves as delighted with this method of lighting. The Chicago, St. Paul, Minneapolis & Omaha Railway Company is now constructing a plant in Minneapolis for the manufacture of Pinesh gas in order to supply the entire passenger equipment. No line keeps its equipment more completely up to the latest standard than does "The North-Western Line" and it has never failed to provide any comfort, safety or pleasure of through travel.

THE FIGURE "9." The figure 9 in our dates will make a long stay. No man or woman now living will ever date a document without using the figure 9. It stands in the third place in 1891, where it will remain two years and then move up to second place in 1900, where it will rest for one hundred years.

There is nothing in our dates except to stay. It is unlike the figure 9 in our dates in the respect that it has already moved up to first place, where it will permanently remain. It is called the "No. 9" figure, and is the only figure that will stay in the third place in 1891, where it will remain two years and then move up to second place in 1900, where it will rest for one hundred years.

The "No. 9" was endorsed for first place by the experts of Europe at the Paris Exposition of 1889, where, among the exhibits, it was awarded the only Grand Prize given to family sewing machines, all other exhibits having received lower awards of gold medals, etc. The French Government also recognized its superiority by the decoration of the "No. 9" with the Legion of Honor.

The "No. 9" is not an old machine improved upon, but is an entirely new machine, and the Grand Prize at Paris was awarded it as the grand advance in sewing machine mechanism of the age. Those who buy it can rest assured, therefore, of having the very latest and best.

The English royal princesses have set the fashion for sisters not to dress alike when they are unmarried, but to continue to do so after becoming wives.

THOMAS HACKETT, of Reed Station, Ind., amused himself by tossing up a silver dollar and catching it in his mouth until the coin lodged in his throat. A surgical operation was necessary to remove it.

From observations made in Switzerland it appears that mortality from organic disease of the heart decreases as the altitude of habitation rises, and that it is greater in towns than in the country.

A Reno County (Kansas) farmer has forty acres of flax which he thinks will yield from fifteen to twenty bushels of seed to the acre, and for which he expects to get from \$1.50 to \$2 a bushel.

The growth of horse racing in the last ten years is illustrated by the fact that in 1880 the money added to prizes by the racing associations amounted to \$180,000. Now it reaches \$4,000,000.

WILLIAM FITZGERALD, a bright young printer at Detroit, has gone crazy over the supposed Bacon cipher in Shakespeare. He has been removed to a lunatic hospital, and, it is thought, will soon recover.

EDISON advises fiddlers to soak the strings of their instruments in petroleum—a splendid idea, doubtless; and if rosin falls, soap the violin bow, and hundreds will bless a poor player. Why? Because it will stop his playing completely.

In the early elections of Oklahoma the rival candidates stood in wagons some distance apart and their adherents gathered around them and were counted. The elected man took office at once, and his edicts were as implicitly obeyed as an act of Congress.

"It almost tempts me to commit deliberate matrimony," observed a young man a few days ago, as he rode in the window of a furniture store this sign attached to a very handsome bedroom set: "Eighteen dollars for this handsome bedroom set."

SOME of the monstrous cranes used in the Baldwin Locomotive Works at Philadelphia lift a big locomotive as easily as a mother does a baby. Each of them takes the labor of 150 men and does away with the necessity of having a complicated system of tracks for shifting locomotives.

FRAULEN LEPPER made considerable sensation at a convention of lady abstainers at Melbourne from all the Australian colonies by making a vigorous attack on tea. In her opinion, next to alcohol, the greatest master of the human will and destroyer of vitality is tea.

The czarowitz has made the rounds of all the principal churches of Moscow, giving thanks for his escape from the Japanese assassin. If that the big Greek prince says in his little book is true the young man should be treated something handsome on his imperial legs, which showed a great inclination for that trying occupation of carrying him out of harm's way.

The inventor of that great American institution, the Waterbury watch, is dead. He is one of the few men in this country who can die and have his time go right on. It is feared that the secret died with him as to why one of his wonderful watches, during the process of winding, makes more noise than a gnat hum.

A BUTTE, Mont., merchant who advertised a handprint stock of shoes was totally unprepared for the enormous crowd which filled his store. Twelve clerks were utterly inadequate to wait upon the rush of customers. Several women fainted in the crush and finally the doors had to be locked. The merchant now believes in advertising.

SOME idle statisticians have figured out that from his birth up to date the prince of Wales has been prayed for in the Church of England 800,000,000 times. This is almost enough to knock out all believers in the efficacy of prayer. The mere hypnotic influence of that number of supplications ought to make a pretty good man, but it didn't.

It is not an unheard-of thing for a man to delegate to his wife the care of his wardrobe and the task of keeping the run of his social engagements, but who ever heard of a man who had to be sent to his meals? In Brussels, Me., there is such a man. His wife was away and he was to take his meals at a restaurant. The first day of her absence he paid no attention to the supper hour but kept right on working until it was time to close his place of business, when he went home and retired, without getting any supper. The next morning he left the house early, and, not thinking of his breakfast until nearly 11 o'clock.

An English bridegroom has been fined for disorderly conduct during the marriage ceremony. He was very shy and nervous, and in order to screw his courage up to the sticking point he quietly took out a flask which the clergyman was reading the exhortation and indulged in a nip. The church was pretty dark and he thought no one saw him, but in this he was mistaken, for the clergyman knew the bridegroom by heart, and instead of looking at the book was looking at him, and of course saw the flask and the cork.

Cat Cullen, a little cat, Mr. Foxgrove? "Was it a little black cat with a bell on its neck and white spots on its tail?" "The very one!" "Then, I haven't seen it."

The deficit was discovered by Postmaster Henry, who was notified by the authorities, and he was notified by the authorities, and he was notified by the authorities.

A Sanborn dispatch says: Grain is in a bad way here. The wheat crop is small, and the harvesters are not getting it in.

# A FORTUNE IN SIGHT.

Two Minnesota After Forty Acres of  
Land in Chicago.

Northfield, Minn., Special Telegram,  
Aug. 25.—Northfield has a claim for  
forty acres of land in the city limits of Chicago.  
His name is William Ebel, and his  
brother, Adolph Ebel of St. Paul, is now  
in Chicago looking the matter up.

The story is that about twenty years ago Adolph Ebel, just over from Germany, settled where Chicago now lies, and remained there a number of years. Finally he moved away and came further west. His son had forgotten probably that part of his existence, when one day an attorney called on him.

The attorney told him that he had found a letter from his father, in which the father had said that he had a claim for forty acres of land in Chicago, where he had settled.

Present evidence would point to the fact that the Ebel really own the land, and that the attorney who had been called on by the Ebel family, had been called on by the Ebel family.

A warrant was at once sworn out for Anderson, and he was arrested at Moorhead. Anderson was taken to Chicago, where he was held.

### THE COUNTY FAIR.

The Date Set For September 24th,  
25th and 26th. It should be Made  
A Grand Success.

At a meeting of the board of man-  
agers of the Crow Wing County  
Agricultural Society on Thursday  
afternoon, it was decided to hold the  
annual fair on Thursday, Friday and  
Saturday, Sept. 24th, 25th and 26th,  
and it will be the aim of the manage-  
ment to make it one of the most at-  
tractive yet held. The interest of the  
people in this county in agricultural  
pursuits and the bounteous and  
abundant crop of 1891 in this section  
should inspire all with a zeal to help  
the managers of the eighth annual  
fair in their endeavors to promote the  
interests of the county, for such it is.  
They need the hearty co-operation of  
all to keep the fair up to the high  
standard which it has attained in  
years past. There will be plenty of  
amusement for all. The Driving Park  
Association will assist and there will  
be good races on at least the last two  
days. If you have any stock or pro-  
duce that you are not ashamed of and  
desire to promote the agricultural  
interests of this section come and  
bring it to the fair on the above  
named dates.

In connection with this it might be  
of interest to state that the officers of  
the association are as follows:

President—W. Hemstead.

Treasurer—H. J. Spencer.

Secretary—J. M. Elder.

Board of Managers—M. Hagberg,  
T. McMasers, J. J. Howe and D. D.  
Smith.

The last annual fair was a success  
financially, which is shown in the  
statement made by the treasurer,  
which has never been published, and  
which is as follows:

#### The Thabes-Riggs Wedding.

Mr. L. W. Thabes was united in  
marriage on Tuesday evening, Aug.  
25th, to Miss Carrie Riggs, at the  
residence of the bride's father, Rev.  
Jenkins, of the Baptist church offi-  
ciating.

The bride is the daughter of A. P.  
Riggs, well known in this city, a  
young lady with hosts of friends, the  
groom being a resident of Ardoch, N.  
Dakota, but who formerly resided in  
Brainerd. The wedding occurred in  
the presence of only intimate friends  
of the family and was a quiet affair.  
The Dispersal extends congratulations.  
Mr. and Mrs. Thabes left last night  
for their future home in North Da-  
kota.

#### Al. Closterman Married.

The Verdale Journal records the  
wedding of a former Brainerdite as  
follows:

Mr. A. H. Closterman, of Staples,  
and Miss Cecil Tinkelpang, of Ver-  
dale, were married at the Congrega-  
tional parsonage in this city, Tuesday  
evening, Rev. T. M. Price performing  
the ceremony. Mr. and Mrs. Closter-  
man went on the midnight train to  
Minneapolis, where they will attend  
the Exposition and visit friends for a  
few days.

After Sept. 1st, J. R. Smith will  
collect for the Minnesota Savings  
Fund & Investment Co., and the Na-  
tional Building Loan & Protective  
Union. Office Room 4, Sleeper Block.

The many friends of G. W. Vander-  
slie in this city, will be pleased to  
learn that he has been promoted to  
the position of superintendent of the  
Winnipeg division of the Northern  
Pacific road, with headquarters in  
that city. Mr. Vanderlie has suc-  
ceeded as assistant superintendent at  
West Superior by A. J. Sovereign,  
formerly of this city, but who has  
been at Fergus Falls in a similar  
capacity. R. C. Wescott taking Mr.  
Sovereign's place at that point.

The following members of Co. K,  
3rd Regt. N. G. S. M., left this city  
Wednesday morning for Lake City,  
to take part in the matches now in  
progress there: Sergt. W. J. Bain,  
Corp. F. W. Britton, Corp. F. J. Brit-  
ton, Private W. J. Davenport, Corp.  
S. J. Greer and Private John Britton.  
These gentlemen compose the regi-  
mental team, and with Private W. G.  
Percy, also compose the company  
team. Those who are successful in  
qualifying will go to Springfield, Ill.,  
to participate in the state team shoot-  
ing, in which seven states will be repre-  
sented.

The Enterprise Cash Grocery House,  
No. 18, Sixth street, has just opened  
with a new stock of groceries.

Wm. Paine, Jr., special deputy  
game warden for this part of the  
state, is making things exceedingly  
interesting for the violators of the  
game law, but if in all localities there  
is as utter disregard for its enforce-  
ment as in Morrison county the results  
will not be satisfactory. On Sunday  
Mr. Paine arrested three fellows from  
Royallton with eight prairie chickens  
in their possession, he having followed  
them into the country, and the birds  
were taken from them in the field.  
That same evening warrants were is-  
sued for their arrest, and Mr. Paine  
was told not to have the sheriff serve  
the papers as he was in the play. Ac-  
cordingly a constable was drafted into  
service, and on his return he had one  
of the men, a prominent liquor dealer  
of Royallton, one of the others having  
skipped to Dakota. The man de-  
manded a jury trial, the two wit-  
nesses swore that the prairie chickens  
were found in the man's possession,  
and still the intelligent jury returned  
a verdict of not guilty. Great is the  
regard for the law in Morrison coun-  
ty.

Highest of all in Leavening Power.—U. S. Gov't Report, Aug. 17, 1889.

### THE COUNTY FAIR.

The Date Set For September 24th, 25th and 26th. It Should be Made A Grand Success.

At a meeting of the board of managers of the Crow Wing County Agricultural Society on Thursday afternoon, it was decided to hold the annual fair on Thursday, Friday and Saturday, Sept. 24th, 25th and 26th, and it will be the aim of the management to make it one of the most attractive yet held. The interest of the people in this county in agricultural pursuits and the bounteous and abundant crop of 1891 in this section should inspire all with a zeal to help the managers of the eighth annual fair in their endeavors to promote the interests of the county, for such it is. They need the hearty co-operation of all to keep the fair up to the high standard which it has attained in years past. There will be plenty of amusement for all. The Driving Park Association will assist and there will be good races on at least the last two days. If you have any stock or produce that you are not ashamed of and desire to promote the agricultural interests of this section come and bring it to the fair on the above named dates.

In connection with this it might be of interest to state that the officers of the association are as follows:

President—W. Homstead.  
Treasurer—J. J. Spencer.  
Secretary—J. M. Elder.  
Board of Managers—M. Hagberg, T. McMaisters, J. J. Howe and D. D. Smith.

The last annual fair was a success financially, which is shown in the statement made by the treasurer, which has never been published, and which is as follows:

The Thabes-Riggs Wedding.

Mr. L. W. Thabes was united in marriage on Tuesday evening, Aug. 25th, to Miss Carrie Riggs, at the residence of the bride's father, Rev. Jenkins, of the Baptist church officiating.

The bride is the daughter of A. P. Riggs, well known in this city, a young lady with hosts of friends, the groom being a resident of Ardock, N. Dakota, but who formerly resided in Brainerd. The wedding occurred in the presence of only intimate friends of the family and was a quiet affair. The Dispenser extends congratulations. Mr. and Mrs. Thabes left last night for their future home in North Dakota.

Al. Closterman Married.

The Verndale Journal records the wedding of a former Brainerdite as follows:

Mr. A. H. Closterman, of Staples, and Miss Cecil Tinklenburg, of Verndale, were married at the Congregational parsonage in this city, Tuesday evening, Rev. T. M. Price performing the ceremony. Mr. and Mrs. Closterman went on the midnight train to Minneapolis, where they will attend the Exposition and visit friends for a few days.

After Sept. 1st, J. R. Smith will collect for the Minnesota Savings Fund & Investment Co., and the National Building Loan & Protective Union. Office Room 4, Sleeper Block.

The many friends of G. W. Vandervorse in this city, will be pleased to learn that he has been promoted to the position of superintendent of the Winnipeg division of the Northern Pacific road, with headquarters in that city. Mr. Vandervorse succeeded as assistant superintendent at West Superior by A. J. Sovereign, formerly of this city, but who has been at Fergus Falls in a similar capacity. R. C. Wescott taking Mr. Sovereign's place at that point.

The following members of Co. K, 3rd Regt. N. G. S. M., left this city Wednesday morning for Lake City, to take part in the matches now in progress there: Sergt. W. J. Bain, Corp. F. W. Britton, Corp. F. J. Britton, Private W. J. Davenport, Corp. S. J. Greer and Private John Britton. These gentlemen compose the regimental team, and with Private W. G. Percy, also compose the company team. Those who are successful in qualifying will go to Springfield, Ill., to participate in the state team shoot, in which seven states will be represented.

The Enterprise Cash Grocery House, No. 18, Sixth street, has just opened with a new stock of groceries.

Wm. Paine, Jr., special deputy game warden for this part of the state, is making things exceedingly interesting for the violators of the game law, but if in all localities there is as utter disregard for its enforcement as in Morrison county the results will not be satisfactory.

On Sunday Mr. Paine arrested three fellows from Royalton with eight prairie chickens in their possession, he having followed them into the country, and the birds taken from them in the field. That same evening warrants were issued for their arrest, and Mr. Paine was told not to have the sheriff serve the papers as he was in the play. Accordingly a constable was drafted into service, and on his return he had one of the men, a prominent local dealer of Royalton, one of the others having skipped to Dakota. The man demanded a jury trial, the birds were exhibited to the jury and two witnesses swore that the prairie chickens were found in the man's possession, and still the intelligent jury returned a verdict of guilty. Great is the regard for the law in Morrison county.
